CONTENTS - VOLUME VII, 1985

No.1

Management of inflammation: lipid peroxide as a parameter for a better understanding of inflammatory processes.
NISHIKAZE O., FURUYA E., KAWAMURA M. 1

Management of inflammation: proamidase as a parameter for a better understanding of inflammatory processes.
NISHIKAZE O., FURUYA E., TAKITA H. 11

Action of ionic iron in carrageenin-induced inflammation: aggravated inflammatory response with destruction of granuloma.
UNO S., NISHIMURA T., FURUYA E., SHIMOKOBE H., NISHIKAZE O. 21

Streptozotocin diabetes: prolonged inflammatory response with delay in granuloma formation.
INOUE N., NISHIKATA S., FURUYA E., TAKITA H., KAWAMURA M., NISHIKAZE O. 27

Pharmacological manipulation of the chronic granulomatous reactions in the livers of mice infected with schistosomiasis.
RAINSFORD K.D. 35

Anti-inflammatory activity of S-adenosyl-L-methionine in animal models: possible interference with the eicosanoid system.
GUALANO M., BERTI F., STRAMENTINOLI G. 41

Appearance of Ia antigens on T lymphocytes stimulated by streptococcal mitogen as an *in vitro* model of autoimmunity.
QUAGLIATA F., FERRONE S. 47

An intravital microscopy model for studies of immune complex induced inflammation at the microvascular level.
SMEDEGÅRD G., BJÖRK J., ARFORS K.E. 55

Antinociceptive models displaying peripheral opioid activity.
SMITH T.W., FOLLENFANT R.L., FERREIRA S.H. 61

Differentiation of multiple analgesic opiate receptors.
FÜRST S., KNOLL J. 69

Differentiation of peripheral and central effects of analgesic drugs.
SCHWEIZER A., BROM R. 79

Comparative study on the electrophysiological responses at thalamic level to different analgesic peptides.
BRAGA P.C., BIELLA G., TIENGO M., GUIDOBONO F., PECILE A., FRASCHINI F. 85

WHO guidelines for the use of analgesics in cancer pain.
VENTAFRIDDA V., SAITA L., RIPAMONTI C., DE CONNO F. 93

No. 2

Modulation by drugs of leukotriene and prostaglandin production from mouse peritoneal macrophages.
BRUNE K., PESKAR B.A. 97

Effects of $PGF_{2\alpha}$ on the active Arthus reaction in rat and rabbit tongues.
TERNER K., JÁVOR T. 105

Effects of leukotrienes on the electroretinographic profile of the isolated rat retina.
DOLY M., BRAQUET P., BONHOMME B., VENNAT J.C., MEYNIEL G. 111

Opposite effects of a glucocorticoid and an immunostimulating agent on prostaglandin production by two different cell types.
DURANT S., HOMO-DELARCHE F., DUVAL D., PAPIERNIK M., SMETS P., ZALISZ R. 117

Effects of anti-inflammatory drugs on catabolin-induced cartilage destruction *in vitro*.
RAINSFORD K.D. 123

A model of peripheral microvascular injury: irreversible caudal necrosis induced in carrageenan-inflamed rats treated with anti-inflammatory drugs and mild chilling: A pluricausal thrombo-haemorrhagic phenomenon.
WHITEHOUSE M.W., RAINSFORD K.D. 127

Effects of anti-inflammatory drugs on rat paw oedema and leukocyte migration.
ENGLER H., SZELENYI I. 133

Chemotactic activity of hydroxyalkenals on rat neutrophils.
CURZIO M., ESTERBAUER H., DIANZANI M.U. 137

Superoxide generation by human blood leucocytes under the effect of cytolytic agents.
GINSBURG I., BORINSKI R., PABST M. 143

Drug modulation of superoxide anion production from human neutrophils.
FANTOZZI R., BRUNELLESCHI S., CREMONESI P., PAGELLA P.G., CIANI D., SPORTOLETTI G.C. ... 149

Effect of growth hormone on the activity of some lysosomal enzymes in neutrophilic polymorphonuclear leukocytes of hypopituitary dwarfs.
ROVENSKÝ J., FERENČÍKOVÁ J., VIGAŠ M., LUKÁČ P. 153

Steroids reduce complement activation in rheumatoid arthritis.
BRANDSLUND I., PETERS N.D., EJSTRUP L. 161

No. 3

FOREWORD 167

Current trends in the research on antiinflammatory agents.
BERTELLI A., SILVESTRINI B. 169

The chemistry of benzydamine.
RUNTI C., BAIOCCHI L. 175

Aspects of the mechanisms of action of benzydamine.
SEGRE G., HAMMARSTRÖM S. 187

Pharmacokinetics of benzydamine.
CHASSEAUD L.F., CATANESE B. 195

Review of pharmacological data on benzydamine.
CIOLI V., CORRADINO C., SCORZA BARCELLONA P. 205

A clinical study of benzydamine for the treatment of radiotherapy-induced mucositis of the oropharynx.
KIM J.H., CHU F., LAKSHMI V., HOUDE R. 215

Benzydamine cream in post-traumatic oedema.
DIEBSCHLAG W. 219

Treatment of vaginitis with benzydamine: preliminary results of a randomized study.
BRÉMOND A., ANDRÉ D., DUCRET L., DUCLAUX C., BARBEREAU D., BENSOUSSAN S., LIARAS J., CONTI C., MARIEN M., MONNIER M., DESHAYES-DEVONEC S., LONG-BERGERET B. 225

Benzydamine: a critical review of clinical data.
MAHON W.A., DE GREGORIO M. 229

Effects of benzydamine on radio-polychemotherapeutic mucositis of the oral cavity.
PRADIA A., LOZZA L., MOGLIA D., SALA L., CHIESA F. 237

Benzydamine for the topical treatment of vulvovaginitis in children and adolescents.
CISTERNINO M., CAMMARESI V., CATTANEO E., BERBENNI A., LORINI R., SEVERI F. 241

No. 4

Influenza virus A/Kumamoto haemagglutinin induces type I, III, and IV hypersensitivity in mice.
ABE C., ONO N., NISHIMURA T., KOMATSU Y., TAKI S., HAMURO J. 249

Persistence of staphylococcal cell-wall components in inflammatory sites may be due to the modulation by sulphated polyelectrolytes of autolytic wall enzymes: a working hypothesis.
GINSBURG I., LAHAV M., SADOVNIK M., GOULTCHIN J., WECKE J., GIESBRECHT P. 255

Blocking of mononuclear cell activation by lonazolac.
GÖRTZ R., APPELBOOM T. 263

An experimental model of arteritis: periarteritis induced by *Erysipelothrix rhusiopathiae* in young rats.
SHINOMIYA K., NAKATO H. 267

A new test method of the standardized evaluation of changes in the ultrastructure of chondrocytes.
ANNEFELD M. 273

Polymorphonuclear leucocytes as a model of CA^{++} and MG^{++}-dependent cellular activation. Effect of calcium entry blockers.
DI PERRI T., LAGHI PASINI F., PASQUI A.L. CECCATELLI L., ORRICO A., CAPECCHI P.L. 291

Ion transport regulation by prostaglandins in mouse macrophages.
BRAQUET P., DIEZ J., GARAY R. 303

Interaction of non-steroidal anti-inflammatory drugs on platelet cyclo-oxygenase and lipoxygenase activity.
CERLETTI C. 309

Mechanisms of blood clotting activation in inflammation: the role of mononuclear phagocytes.
SEMERARO N., LATTANZIO A., MONTEMURRO P., PAPANICE M., DE LUCIA O., DE BELLIS G., GIORDANO D. 313

The clinical significance of a_1-antitrypsin-elastase (a_1AT-ELP) and a_2-antiplasmin-plasmin (a_2AP-PL) complexes for the differentiation of coagulation protein turnover: indications for plasma protein substitution in patients with septicaemia.
SEITZ R., EGBRING R., RADTKE K.P., WOLF M., FUCHS G., FISHER J., LERCH L., KARGES H.E. 321

Implication of lipid peroxides in gastric ulcer formation in indomethacin-treated rats.
PUIG-PARELLADA P., PLANAS J.M. 329

Dysenzymia induced by hexavalent chromium in rat liver.
KUMAR A., RANA S.V.S., PRAKASH R. 333

No. 5

The isolation and characterization of kadsurenone from haifenteng *(Piper futokadsura)* as an orally active specific receptor antagonist of platelet-activating factor.
SHEN T.Y., HWANG S.B., CHANG M.N., DOEBBER T.W., LAM M.H., WU M.S., WANG X. 339

Synthesis of platelet-activating factor from human polymorphonuclear leukocytes: regulation and pharmacological approaches.
SÁNCHEZ CRESPO M., ALONSO F., GARCÍA GIL M., GÓMEZ-CAMBRONERO J., NIETO M.L. 345

Properties of Pal-acether appropriate to a mediator of the inflammatory aspects of asthma.
PAGE C.P., ARCHER C.B., GUERREIRO D., MORLEY J. 351

The role of platelet-activating factor in experimental immune complex pathology.
CAMUSSI G., TETTA C., ALBERTON M., ROFFINELLO C., MARIANO F., MULARONI E., CODA R., MACCHIORLATTI E., MONTRUCCHIO G. 355

Inflammatory characteristics of PAF-acether in the skin of experimental animals and man.
ARCHER C.B., PAGE C.P., PAUL W., MORLEY J., MACDONALD D.M. 363

Platelet-dependent granulocyte activation *in vitro:* effect of ticlopidine.
LAGHI PASINI F., CECCATELLI L., PASQUI A.L., ORRICO A., CAPECCHI P.L., DI PERRI T. 367

Selective tissue accumulation of manganese and its effect on regional blood flow and haemodynamics after intravenous infusion of its chloride salt in the rat.
GERDIN B., MCCANN E., LUNDBERG C., ARFORS K.-E. 373

Rat pleurisy induced by kaolin or croton oil: time course of fluid accumulation and white cell migration.
KAWAMURA K., OH-ISHI S. 381

Activation of latent polymorphonuclear leucocyte collagenase by the glutathione cycle.
WOJTECKA-ŁUKASIK E., MAŚLIŃSKI S. 387

Elimination of protease-inhibitor complexes from the arthritic joint.
EKEROT L., OHLSSON K., NECKING L. 391

Comparison of spontaneous and retinoic acid stimulated rabbit articular cartilage degradation *in vitro.*
DIPASQUALE G., PERRY K.W., DEA D., CACCESE R. 397

Clinical value of serum amyloid A and C-reactive protein measurements in secondary amyloidosis.
MAURY C.P.J., WEGELIUS O. 405

No. 6

Type II collagen induced arthritis in rats: clinical and immunological studies.
KERWAR S.S., ORONSKY A.L. 409

Sodium diethyldithiocarbamate influences the early immunological changes evoked by an acute non-antigenic inflammation process.
RENOUX G., GIROUD J.P., FLORENTIN I., RENOUX M., GUILLAUMIN J.M., DEGENNE D. 431

Mouse peritoneal cells exposed to sodium aurothiomalate *in vivo*.
MØLLER-MADSEN B., MOGENSEN S.C., DANSCHER G., RUNGBY J., THORLACIUS-USSING O., GRAUDAL H. 439

Serum inflammatory responses of transcortin binding activities and of total and free corticosterone and progesterone levels in developing rats: a kinetic approach.
SAVU L., ZOUAGHI H., NUNEZ E.A. 443

The modulation of cutaneous inflammatory reactions by peptide-containing sensory nerves.
JANCSÓ G., OBÁL F. Jr., TÓTH-KÁSA I., KATONA M., HUSZ S. 449

In vivo anti-allergic and anti-inflammatory effects of drugs that inhibit lipoxygenase activity *in vitro*.
ETIENNE A., SOULARD C., TOUVAY C., CLOSTRE F., BRAQUET P. 459

Antiinflammatory effect of the antioxidant MTDQ-DS.
MOLNÁR I., BUDAVÁRI I., NÁNÁSI Á., GYIRES K., IKRÉNYI K. 463

Copper metabolism in the acute inflammatory process and its possible significance for a novel approach to the therapy of inflammation.
MILANINO R., CASSINI A., FRANCO L., CONFORTI A., MARRELLA M., VELO G.P. 469

On the non-specific antiinflammatory effects of other-than-antirheumatic drugs.
MAREK J. 475

Analgesic activity of medroxyprogesterone acetate (MAP) in cancer patients: an antiinflammatory mediated activity?
PANNUTI F., MARTONI A., MURARI G., DE SANCTIS R., FRUET F., STROCCHI E. 505

Analgesic, anti-inflammatory and oxy-radical scavenger activity of imidazole and imidazole derivatives.
PUIG PARELLADA P. 509

Pharmacology of free radical scavenging in inflammation.
ARRIGONI-MARTELLI E. 513

Chronic inflammatory demyelinating polyneuropathy.
RIZZUTO N., SIMONATI A. 521

Hydroxyapatite associated arthritis in a patient undergoing chronic haemodialysis.
YANO E., TAKEUCHI A., YOSHIOKA M. 527

Total IgE in newborns treated prophylactically with conalbumin.
DEL GIACCO G.S., LEONE A.L., FERLAZZO A. 535

Letter to the Editor:

AL DUAIJ A., DE BRITO F., MOORE A.R., WILLIAMS J., WILLOUGHBY D.A. 539

Contents index (1985) 541
